 - After detox ONLY
- HAVEN/ NOW WINWARD – infants and children on site
 - Will accept opioid managed pregnant women
- SMA
- HAVEN/WINWARD
- Other – Subutex management with OB Coordination

Outpatient

- HAVEN/WINWARD
- SMA
- Subutex or other opioid management with OB Coordination

Pediatric Subcommittee

Goal Statement: *All caregivers will be trained on handling an infant diagnosed with NAS before discharge*

- Bio-parents, foster parents, relative caregivers, and other caregivers of substance exposed newborns will be trained at the hospital on handling of newborns and the Finnegan Scoring Guide – **status report**
- CPC placement/foster care resources are trained in special handling - Integration of NAS/signs and symptoms/handling into foster care training
- Substance exposed LBW and VLBW infants will be referred to CMS, Early Steps for follow-up and Child Find activities – **CMS Referral form being used, Dr. Thorpe will accept all infants at Keech for coordination**

Pediatric Sub-committee (cont'd)

- Substance Exposed Newborns will have “early” follow-up with pediatrician. **NOS is actively working with NICU for follow up with Dr. Thorpe on East side. SEN Staffing form updated. Staffings held 3 x weekly at Halifax NICU. Need support for babies at tx sites.**
- Explore research regarding sensitivity of toxicology screens used with newborn sensitivity - **completed**
- Support Court Team Model and training activities for health and human service agencies about maltreatment prevention and response – Circle of Security training available through A Helping Hand and Lisa Benitez
- Provide information to Circuit 7 to assist with updating of Child Abuse Prevention Plan – **info to Susan Le...**

OB Sub Committee

Goal Statement: *Develop an effective program that offers prenatal support and services for the substance exposed pregnant woman regardless of the dependency at hand.*

- Standardize Universal Screening tool for OB providers - **4 P's Plus Screening Instrument recommended – Training plan needs to be developed**
- Develop brief power point to educate OB Providers regarding importance of utilizing universal screening in early pregnancy based on AWHONN and ACOG guidelines – **Update – Dr. Carbiener has developed. Schedule Grand Rounds.**
- Create a resource guide for OB providers when a positive screen is identified – **Draft list to reviewed – add DMTC.**
- Educate OB providers regarding the universal screening tool and resources available when a positive screen is identified – **develop grand rounds schedule – OB Subcommittee convened in June. Discussed key points of entry and physician resource support**

Update

- Resource Guide updated.
- Grant submitted to HRSA notification of non-award. We were just advised that our award would be reviewed again.
- WVHA grant approved by Community Advisory Committee for a WIS for West side. Need final approval by WVHA. If approved, effective October 1, 2014
- Deltona City Commission preliminarily approved space in Deltona

Post Partum Sub Committee

Goal Statement: *Ensure mothers have necessary follow up care upon hospital discharge*

- Ensure family planning discussed PRIOR to delivery and post partum. **Provide resources to women**
- Have the Family Planning Waiver signed by patient – **NOS**
- Send a letter to physicians about performing tubal ligation for patients – **Title X - need Health Department letter**
- Provide training to providers patients, caregivers and the community about substance exposure. **Training Menu**
- Provide training about NAS, resources, etc.
- Provide training about “how to discuss SENS” with patient – **Healthy Start will provide if hospitals/physicians will request – Career Source can assist with payment.**

Update

- What tools/activities can Healthy Start assist with to support Post Partum activities?
- MomCare's ability to follow up is changing. Tubal ligation referral form needed for Title X
- Update on Newborn Nursery Staffing activities
- Haven/WINWARD and WARM Updates for Post Partum. Any needs from partners?

Staff Development Sub Committee

Goal Statement: *Our service area will have a community workforce trained in prevention and intervention for women of reproductive age, pregnant women, and their babies.*

- Identify target audiences for training considering points of entry of each targeted population - **completed**
- Identify learning objectives for pre/interconception, prenatal, post partum, and early childhood (pediatrics) – completed
- Identify existing staff development resources and means of communicating them to partners/community – **menu available**
- Review feedback from subcommittees about training needs/goals.
- Identify various local workgroups that are reviewing related issues/initiatives – **CAPP Plan development, CPC, Court Team, Thrive by Five, ELC, LPT**
- Transfer of knowledge from workgroup to workforce – **recommend quarterly training opportunities**

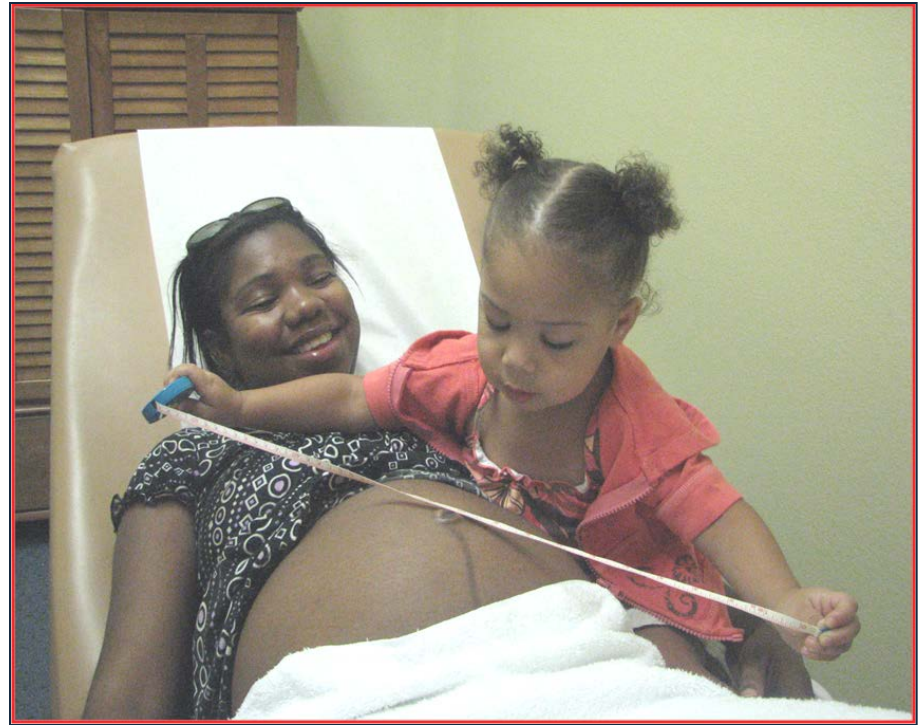

Next Steps

- Sub Committees continue to meet to achieve objectives.
- Training objectives to Staff Development Committee – schedule “grand rounds?”
- Coordinate special clinic at Women’s Care NOW for substance using pregnant women.
- Additional Updates on Resource Guide –
- Provide information on training activities.
- Other next steps needed?

Questions?

Let's work together to keep them ALL safe, healthy, and happy!

Thank You!
